**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I, as residential consumers will be affected, by your plans to downplay my carrier. My carrier, Sonic there are no carriers uses unbundled copper and inter-city fiber transport elements (UNEs) to compete in the residential marketplace.

Sonic, other carriers, and a full economic study all disagree with USTelecom on this key point.

Sonic residential subscribers do exist, and our members would be "materially affected". In fact, those effects would be profound; without access to UNE services, Sonic wouldnt have been able to connect consumers while we build our fiber networks, nor fund the construction of our fiber networks. And once fiber networks are built, UNEs are still used they connect from city to city and are the key backhaul for all of our fiber networks.

So stop lying and keep competition alive!
